## KEY FEATURES

### **Customizable Course**

Instructors can customize their course with our pre-built assignments and assessments

### **Flexible Time Commitment**

Instructors can create assignments to fit every class schedule

### **Earn Badges and Rewards**

Students earn badges as they complete objectives and core learning concepts

### **Performance Reporting**

Instructors can monitor student progress through the game and see grades earned on assessments

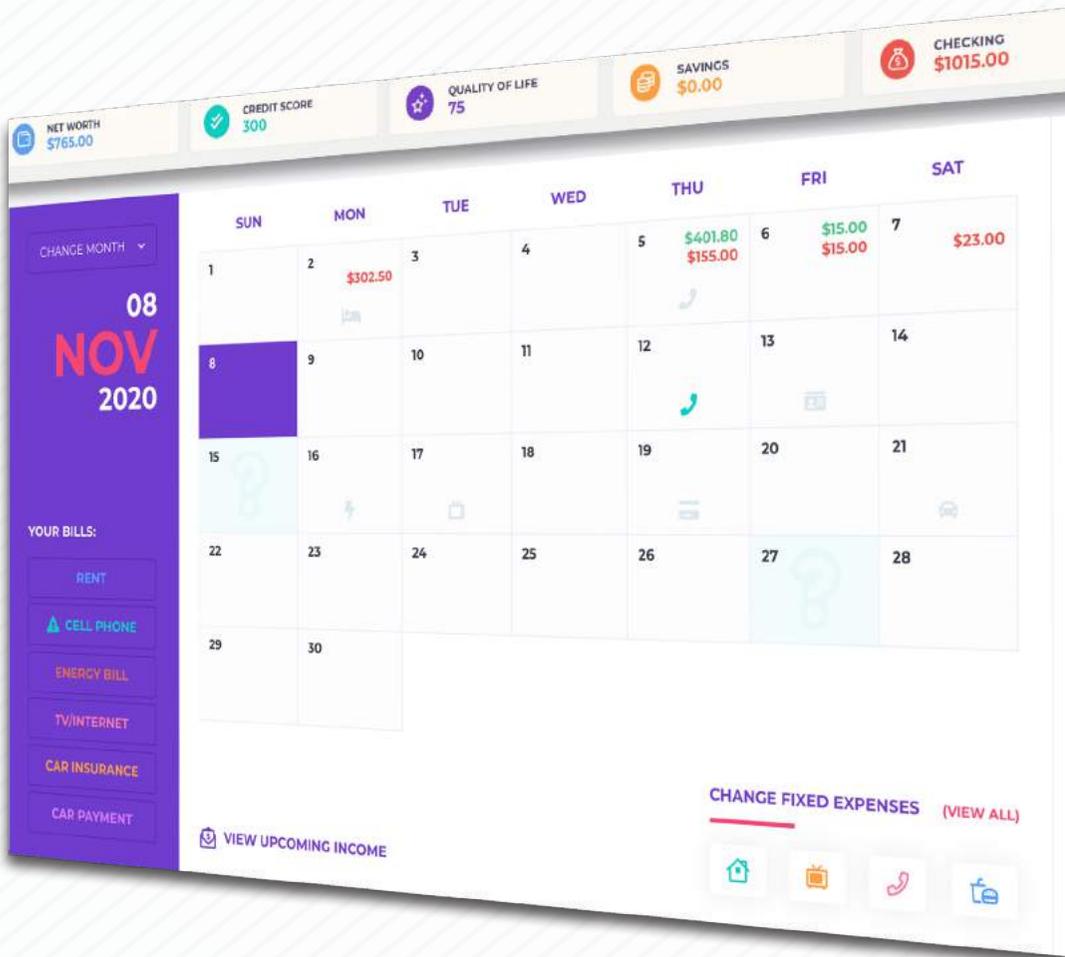

### **Instructor Resources**

Lesson Plans, PowerPoint slides and pop-quiz answer keys are available for instructors

# BUDGETING SIMULATION

The budgeting simulation program helps to **manage, track and monitor** your participants performance on various budgeting, savings and other personal finance assignments.

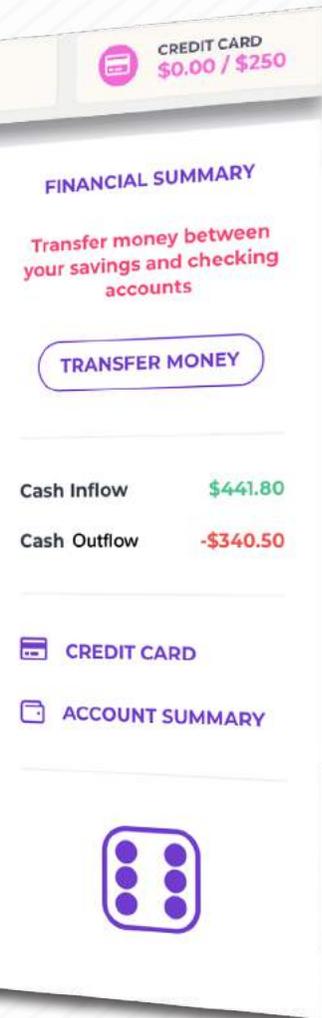

## ***Built-in Assignments and Assessments:***

Create a custom course by choosing which articles, videos and tasks are required to complete an assignment. Each lesson contains assessments to confirm the students understanding of the material.

# BUDGETING SIMULATION FEATURES

*Students learn to manage a checking account, savings account and credit card as they try to live on a monthly budget and deal with unexpected events.*

*Students will learn many key concepts:*

## **Pay Yourself First**

Students can set savings goals each month

## **Pay Bills On Time**

Students learn the value of paying bills on time

## **Credit Score**

Students learn how to improve their credit score

## **Unexpected Life Events**

Students learn the importance of planning for unexpected events

## **Credit Cards**

Students learn the benefit of paying off their credit card balance

## **Quality of Life**

Students will have various choices to choose between working, studying or socializing

## OUR CURRICULUM LIBRARY IS ALIGNED TO NATIONAL AND STATE STANDARDS

### **National Standards for Personal Finance**

Standards focus on Spending and Saving, Credit and Debt, Employment and Income, Investing, Risk Management and Insurance and Financial Decision Making. National Standards are used as the basis for Personal Finance standards around the country, with most states heavily overlapping or outright adopting the Jumpstart recommendations.

### **National Standards for Personal Finance and Economics Education**

Standards are used as the basis for many state standards or wholly adopted by some states without modifications. Their mission is to equip K-12 students with the tools and knowledge of personal finance and economics so that they can make better decisions for themselves, their families, and their communities.

### **National Standards for Business and Career Technical Education (CTE)**

Standards are considered the “de-facto” CTE standards for business career tracks when no state standards have yet been specified. NBEA is devoted to the recognition that business education competencies are essential for all individuals in today’s fast-changing society and dedicated to advancing and improving business education.

# STANDARDS **ALIGNMENT**

## **Personal Finance**

Our Personal Finance curriculum is aligned to two sets of standards at the national level: the Jump\$tart Coalition and the Council for Economic Education.

## **Economics**

Our Economics curriculum is aligned to the Council for Economic Education standards with extra supplemental activities for personal finance topics.

## **Business**

Our Business curriculum is aligned to the National Business Education Association standards and divided into three broad subject categories: Accounting, Management and Marketing.
